

Halal Quality Control

HALAL CONFIRMATION

Halal Quality Control confirms hereby that it has audited the production site of the
Maison Dahrene Laboratoire

Located on:

64 rue des Frères Lumière 59560 Comines, France

Following the review of documents related to quality management, food safety, and Halal management, and after conducting an on-site audit of the company's premises -including verification of operational procedures and inspection of production lines- we hereby confirm that the company mentioned above, at the specified address, **is capable of producing Halal products** in compliance with Halal standards and the HQC Halal certification scheme.

We also confirm that **only shipments that have Halal certificates for each batch** are Halal certified and that we are not responsible for any other batches that does not have a Halal certificate. The information stated in this confirmation **does not apply to batches without Halal certificates**.

Halal Quality Control supervises and audits according to a specific program each shipment that receives a batch certificate only, **and its responsibility is limited to these shipments with Halal certificates**.

This confirmation is given to Maison Dahrene Laboratoire on an annual basis and has a specific expiration date found below.
